

Children Benefit

In Centro Zion there are many students of poor families, but they are studying in Zion because the teaching is with more discipline and this is very important for the parents; the education is improved with Bible class and chess class, adding studios curriculum of the Ministry of Education.

Also many activities extra classes, these increasing the knowledge and skills of the students.

Thank God, you and your Church in this month 5 beneficiary families received the payment of June and July. The parents and students are very grateful, because pay monthly is hard, but they hope that the children will be professionals and good people.

Patricial Abigail Choy Yancoba
First Grade
13 years old

She is from a poor family, his father stays drunk and it affects the personal life of each member of the family, especially of Patricia, but she has been strong.

Selvin Roberto Merén Xicay
